### Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, and you will have truly marvellous. Inveterate cases of Serofulous discussed in the little and the corruption, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Serofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and that the contrained by the sense of the sense of the most destructive enemies of our race. EXTRAORDINARY CURE OF A COUGH

The Official Terms So completely does the terrible war now devastating the fairest part of Europe overshadow every other subject that there is very little relish for the more commonplace and less exciting themes of everyday existence. And yet the subject indicated by the caption under which we write involves consider stions sufficiently important to every British Columbian to demand instant and earnest attention. In another column will be found the official Terms of Confederation agreed upon at Ottawa, and very soon to be submitted for the acceptance or rejection of the people whom they most nearly concern. And now that these Terms are no longer surrounced by the mist of diplomatic reticence, the consideration of them can be approached with more precision and less guesswork. It will be seen at a glance that, upon one or two points of considerable importance, we were a little astray; yet our forshadow-ings were for the most part tolerably orrect, while the assertion that the Terms were returned to our Governor in a form really more favorable to this colony than that in which they left his hands will find ample justification in the text. To particularise, masmuch as money generally constitutes the most intere ting, it not the most important element in all such matters, let us take the financial part of the Terms first. It will be observed that the population basis falls somewhat below our reckon-We were induced to believe it was ing. We were induced to believe it was fixed at one hundred thousand. It is put down at sixty thousand. This is It is just one-half of what the Government scheme ventured to claim, and forty thousand less than we were led to expect. The difference is chiefly important as influencing financial results. Let us see how far it will affect these. It will give us \$48,000 a year less from the per capita grant, and \$33.300 a year less from the interest estimated on the difference of public debt. And bere its influence on the finances stop—\$81 300 less a year. But a set-off, and consid-siderably more, will be found in the eleventh section, wherein it is provided that the Dominion Government shall in consideration of certain land grants for the purposes of the Canadian Pa-cific Railway, pay the sum of one hun-dred thousand dollars annually to British Columbia. Section four also exhibits an advantage which was scarcely reckened upon under the original scheme and which, for present purposes, may be expressed in figures at \$25,000 a year. Thus we shall receive from the Dominion: Annual subsidy, \$35.000; interest on difference of debt, \$33.800; per capita grant, \$48 000; payment in consideration of land grants, \$100,000, making a total of \$216,000 which we shall receive half-yearly in advance from the Federal treasury with which to psy our Provincial way. We shall not now dwell upon the less direct money advantages, or attempt to strike a finan-cial balance between the Colony and the Dominion, but shall take a basty glance at one or two of the new and more noticeable features in the Terms before us. The provision for a semiand Olympia, to be performed by vessels adayted for the conveyance of freight and passengers, is a new and most important frature. Indeed, it will exert an i flaence upon the trade of this city, to say nothing at all about the mail accommodation it will extend to the whole colony, scarcely less felt than that of fortnigh ly communication with San ranci-co. Looking to the completion of the Northern Pacific Railway, it is even more important than the San Francisco com ction. It will be observed that section five, subsection D provides for the maintenance of our provides for the maintenance of our telegraphic system by the Dominion Government, thus refleving the colony of about \$10,000 a year. It will be seen that we were substantially correct in regard to the provision made about the Customs tauffs. Probably the most important section of all the fourteen is that which relates to the Canadian Pacific railway. A d here we find the language employed as definite as the terms are satisfactory. May it not be permitted us to congratulate the colonists upon the final and complete removal of all that doubt with which certain parties to this colony so assiduously labored to surround this the greatest and, to us, most important enterprise of the day? After all the sneers we have endured for asserting the feasibility of the scheme and the certainty of its being undertaken by the Dominion Government it is peculiarly gratifying to us to find this item in the Terms couched in language at once so decided and un-equivocal. The assurance of as liberal an Indian policy as that hitherto pur-sued by the British Columbia Government sounds very like a piece of grim irony. We were not aware that our Government had an Indian policy! The fourteenth section would be far from satisfactory were it not for a knowledge of the fact that it will be left to the representative members of the very first session of the Legislature about to be constituted to decide whether the people desire Responsible Government at once, or whether they will prefer to

ARLON, via Brussels, Aug 29—A special to the Sun says the Prussians are making a fink movement on McMahon just as they did on Bazzine. McMahon already occu did on Bazzine. McMahon already occupies a line from Reipel to Senay, leading on Meires, Sedan and Montmedy with the Belgium bouddary in the rear. The Prussians who were marching on Paris deployed from Stenay to Troyes and have changed their direction—instead of going west they are going north. Their troops around Troyes are marching in the direction of Romilly, those around Chalons in the direction of Suippes and those which were between Stenay and Vatennes in the direction of Retpel, by Grand Pre and Vouseers, while a strong force is at Dineobserry on McMahon's left. At Stenay meanwhile strong Prussian columns are advancing from Luneville and Joinville to St Dizier where the King's headquarters were yesterday reported to be. It quarters were yesterday reported to be. It is the manifest intuntion of the Prussians to destroy McMahon as they destroyed Bazaine and then turn their attention to Paris. A and toen turn their attention to Paris. A great battle will be fought before many days between Retpel and Montmedy. I do not believe in a dispatch from Retpel this morning which states that McMahon and

Buzane are in communication.

CANADIAN VOLUNTEERS .- In the Briish House of Commons, on the 14th of July, Major Walker asked the Under-Secretary of State for the Colonies whether Her Majesty's Government had taken or were about to take any steps to mark its sense of the zeal and gallantry displayed by the Colonial Forces during the recent disturbances on the Canadian trontier.

MR. Monsell: -Her Majesty's Goveroment immediately upon receiving information with respect to the conduct of the Canadian Volunteers, addressed a dispatch to the Governor-General of Canadian expressing — what I am sure was the feeling of the House and of the country-their sense of the bravery spirit, promptitude, and energy exhibited by the Volunters during the recent dis-turbances on the frontier. They had tarther addressed a letter to the Gov-ernor-General of Canada asking him whether there are any officers to whom whether there are any officers to he would recommend that the order of St. Michael and St. George should be awarded. No answer has yet been received, but 1 can assure the hon. member Her Majesty's Government are anxious to mark in every way they can their sense of the gallant conduct of the Canadian Volunteers.

Communication from Messrs. Sproat & Co. relating to the Hose, was read and ordered to be placed on file.

The Pound Keeper submitted a report showing the amount of revenue and expenditure for the month ending August :

From Arthur Strong for Sanitary labor, \$20 From W. A. Sayward for lumber, to build a Drain on Humbolt Street, \$12,50. McCreight for legal services \$60. From Mr. McCreight for legal services \$60. W. Green for surveying grades, \$15. All of which was submitted and referred to the Finance Committee for payment.

The sum of \$80 paid for labor on streets by the Street Committee was confirmed.

Permission was given to R. McDonall to build a cistern on the corner of Fort and Bianchard streets. From Arthur Strong for Sanitary labor, \$20

SOMBRERO CREEK. - This creek-lately visited by Mr Stephens and other prospectors -is a small stream eight miles west of Jordan river. It takes its rise in the Island Coast range, rushes with great impetuosity down the side of a steep mountain and throws itself into the Straits of Fuca. The width of the stream is about 70 feet. Nu-mer, as falls exist—one of them 30 feet in height—in fact, the river is supposed to be merius fails exist—one of them 30 feet in height—in fact, the river is supposed to be one great fail from source to mouth. The sides are thickly clothed with timber and sallal bushes. The latter attain a height of 15 feet! From a crevios the prospectors got \$7-50 in gold of a beautiful orange color, some of the pieces the size of a watermelon. some of the pieces the size of a watermelor seed. Most of the crevices are filled with a seed. Most of the crevices are filled with a coment as bard as rock and more difficult to displace. Near the mouth they found a bar composed of rock and debris, washings from a false perrock of coment. On this bar they ot 5 and 6 cents to the pan in the grave and they think about 100 feet of the grave will pay well.

GOING TO THE COUNTRY .- At the reques of the managing committee of the Agricultural Exhibition, Mr Norris, who has been tural Exhibition, Mr Norris, who has been so very successful in this community, will shortly proceed to canvas the country districts, less, however, for the purpose of soliciting subscriptions than with a view to efficiently the sympathy and active co-operation of the farmers by explaining to them the object and advantages of the movement. While there is not a settler in the length and breadth of the land who should not be a subscribing member of the society, there asbreadth of the land who should not be a sub-scribing member of the society, there as-suredly is not one who should hesitate to evince sufficient interest in the matter to become an artificial. become an exhibitor.

SPIRITUALISM AT FAULT -- We are informaed that, a few weeks ago, at a spiritual seance held in this city a communication was reesived from the other world that a young man, then absent, had just died in Celifornia. The name of the town and that of the hole in which he was said to have died were stated with emphasis and circumstantiality and the statement was repeated over and over again. The young man's friends immediately put themsolves in communica-tion with friends in California and yesterday received word that he is alive and well and quite indignant at the liberty the spirits have taken with his name.

THAT LOAN .- Not long ago the telegraph alluded to a certain Canadian Loan Bill in its progress through the British Parliament. some persons jumped at the conclusion that the loan could be none other than that for the construction sof the Canadian Pacific the construction for the Canadian Facine Bailway; and amongst those who rushed to so unwarrantable a conclusion was our contemporary, who, but a few weeks ealier ridiculed the whole railway scheme. It turns out that the loan was one of \$5,500,000 for fortifications in the Dominion. fortifications in the Dominion.

PRINCE EDWARD ISLAND. - The result of the late elections has been to return, as is stated, an equal number of Confederates and minion is willing to assent on the Union of this Colony with the Dominion. Antis, and it is presumed that the present Administration, which is anti-Confederate, will not be able to command a majority.
Doubtless the little island is tired of remaining out in the cold.

They report that Madden and purtuer were met by them in a half starved condiwere met by them in a half starved condi-tion on the trail 30 miles from Tatlah Land-ing. They had had nothing to eat save on dried fish for several days and were bound for Peace river, having discovered no dig-gings on the Skeena or its tributaries, neither had they experienced any difficulty with In-dians. Our informants left about 150 men on Vitalle creek and vicinity. Only one claim. | on the difference between the actual amoun Vitalle's, was paying. The yield was \$10 to \$15 a day to the hand. Four companies were engaged in sinking holes at the head of the creek, but they had got no prospect. Proscreek, but they had got no prospect. Prospecting was also proceeding on Quartz creek. A company of eleven men were making \$5 and \$6 per day to the hand. Fifteen Chinamen were at work near by and were making \$3 and \$4 to the hand. There were making \$3 and \$4 to the hado. There had been no eickness or deaths at the mices. The weather was pleasant, with occasional failt of raio. On Silver creek, tweaty miles from Vitelle, a company of 16 men were turning the stream and expected to do well. Two parties of prospectors are missing. One party, headed by Black Jack, the mountainer started two months are to prospect Naparty, headed by Binck Jack, the mountain-cer, started two mouths ago to prospect Na-tion river, and had not since been heard from. Another party, composed of one white and two colored men, started to reach Peace river about ten weeks ago. A low days afterwards their dog returned to camp in a half starved condition, and it is feated some accident has befallen the men. The country has been quite thoroughly prospect-ed this year, but the results obtained are country has been quite thoroughly prospected the year, but the results obtained are not flattering. The gentleman with whom we conversed yesterday left Tatlah Landing 34 days ago and traveled leisurely down, stopping at Indian rancherias to recruit occasionally. At the forks of the Skeena the party met Mitchell and came down with him. There are now no white men on the Skeena, save at Woodcock's Store at the would of the river. On the way down the

mouth of the river. On the way down the Crast the party saw large schools of whales. They are very tame and come close in shore. Mr Mitchell has spent some months is

prospecting on the Skeena, but made nothing —the diggings being generally shallow and DISCHARGED .- Joseph McDowell, charged

with assaulting Mrs Timothy Roberts, was yesterday discharged from custody after an apology. DR. TUPPER-One of the most talented of

Canada's Statesmen, has been returned to

the Confederation Parliament without opposition. GABRIEL SCRABARB [what's in a name ?] has pleaded guilty to a charge of selling

spirits to an Indian. NOVA SCOTIA COAL,-The French Government has been purchasing large quantities of

coal in Nova Scotia. AN INVOICE of Chinese beauties went forward for the mines vesterday per Enterprise, consigned to their humbands at Cariboo.

DIRECT STEAMER. The next steamer will sail from San Francisco for Victoria on Saturday. Probably the Pelican.

MR DAVID HIGGINS, attorney-at-law Seattle, Washington Territory, visited Victoria yesterday and favored us with a call.

FOR THE RIVER .- The steamer Enterprise yesterday carried forward 60 tons of freight and 34 passengers.

THE Sir James Douglas, for the East Coast, parried a full treight yesterday morning.

To His Excellency Governor Musgrave &c., &c., &c.

COPY OF A REPORT OF A COMMITTEE OF THE HONOURABLE THE PRIVY COUNCIL.

The Committee of the Privy Council have The Committee of the Privy Council have had under consideration a Dispatch, dated the 7th of May, 1870, from the Governor of Bri ish Columbia, together with certain Resolutions submitted by the Government of that Colony to the Legislative Council thereof, both hereunto annexed, on the subject of the proposed Union of British Columbia with the Dominion of Canada; and after with the Dominion of Canada; and after that until the commencement within Two Years as aforesaid from the date of the Union, of the construction of the said Railway, the Government of British Columbia shall not sell or alienate any further portions of the Public Lands of

bia, and full discussion with them of the various questions connected with that impor-tant subject, the Committee now respectfully submit for your Excellency's approval the following Terms and Conditions, to form the basis of the Political Union between British Columbia and the Dominion of Canada:—

1. Canada shall be liable for the Debts

and Liabilities of British Columbia existing

at the time of the Usion.

2. British Columbia not baying incurred debts equal to those of the other Provinces now constituting the Dominion shall be entitled to receive, by half yearly payments in advance from the General Government, In-terest at the rate of five per cent per annum of its indebtedness at the date of the Union, and the indebtedness per head of the popu-lation of Nova Scotia and New Brunswick (\$27.77.) the population of British Columbia

(\$27 77.) the population of British Columbia being taken at 60.000.

3 The following sums shall be paid by Canada to British Columbia for the support of its Government and Legislature, to wit: an Annual Subsidy of \$35.000 and an Annual Grant equal to 80 cents per head of the said population of 60.000, both half-yearly in advance, such Grant of \$30 cents per head to be augmented in proportion to the increase of monulation as may be shown by sach subof population as may be shown by each sub-sequent decennial consur, until the popula-tion amounts to 400.000, at which rate such Grant shall thereafter remain; it being un derstood that the first census shall be taken

in the year 1881.

4 The Dominion will provide an efficient Mail Service, fortnightly, by steam communication between Victoria and San Francisco, and twice a week between Victoria and Olympia, the vessors to be adapted for the conveyance of freight and passengers, 5 Canada will assume and defray the charges

for the following services:

A. Salary of the Lieutenant Governor,
B. Salaries and Allowances of the Judges
of the Supreme Courts and of the County or District Courts.

C. The charges in respect to the Department of Customs,
D. The Postal and Telegraphic Services, D. The Postal and Telegraphic Services. E. Protection and Encouragement of Fish-

F. Provision for the Militia,
G. Lighthouses, Buoys and Beacons,
Shipwrecked Crows, Quarantine and Marine
Hospita s, including a Marine. Hospital at

letoria H. The Geological Survey,

I. The Penitentiary,
And such further charges as may be incident to and connected with the services which by the British North America Act of 1867 ap-pertain to the General Government, and as are or may be allowed to the other Pro-

are or may be allowed to the other riovinces.
6 Suitable Pensions, such as shall be approved of by Her Majesty's Government,
shall be provided by the Government of the
Dominion for those of Her Majesty's Sarvants in the colony whose position and
emoluments derived therefrom would be af
fected by political changes on the admission
of Bri ish Columbia into the Dominian of

7. It is agreed that the existing Customs Tariff and Excise Duties shall continue in Tariti and Excise Duties shall continue, in force in British Columbia until the Railway from the Pacific Coast and the system of Railways in Canada are connected, unless the Legislature of British Columbia should sooner decide to accept the Tariff and Excise Laws of Canada. When Customs and Excise Duties are, at the time of the union of Reitish Columbia, with Canada. Invisible of British Columbia with Canada, leviable on any Goods, Wares or Merchandise in British Columbia or in the other Provinces of the Dominion, those Goods, Wares and Merchandise may, from and after the union, be imported into British Columbia from the Provinces now composing the Dominion, or from either of those Provinces into British Columbia, on proof of payment of the Cus-toms or Excise Duties leviable thereon in the Province of Exportation and on paymont of such further amount (if any) of Customs or Excise Duties as are leviable thereon in the Province of Importation. This arrange-ment to have no force or effect after the as-similation of the Tariff and Excise Duties of

British Columbia with those of the Dominion 8. British Columbia shall be entitled to be represented in the Senate by three Members, and ty six Members in the House of Com-The representation to be increased

under the provisions of the British North America Act. 1867.

9. The influence of the Dominion Government will be used to secure the continued maintenance of the Naval Station at Esqui-

malt.
10. The provisions of the British North America Aot. 1867, shall (except those parts thereor which are in terms made, or by reasonable intendment may be held to be especially applicable to and only affect one and not the whole of the Provinces now comprising the Dominion, and except so far as the same may be varied by this minute) be applicable to British Columbia, in the same way and to the like extent as they apthy to the other Provinces of the Dominion, and as if the Colony of British Columbia had been one of the Provinces originally

had been one of the Provinces originally united by the said Act.

11 The Government of the Dominion undertake to secure the commencement simultaneously, within two years from the date of the Union, of the construction of a Railway from the Pacific towards the Rocky Mountains, and from such point as may be selected, East of the Rocky Mountains, towards the Pacific, to connect the Scabbard of British Columbia with the railway system of Canada, and with the ralway system of Canada; and further, to secure the completion of such Railway within ton years from the date of the Union

And the Government of British. Columbia agree to convey to the Deminion Government, in trust, to be appropriated in such manner as the Dominion Government may deem advisable in futherance of the construction of the said Railway, a similar extent of Public Lands along the line of Railway throughout its entire length in British Columbia, not to exceed however Tventy (20) Miles on each side of said line, as may be appropriated for the same purpose by the Dominion Government from the Public Lands in the Northwest Territories and the Province of Manitoba. Provided that the quantity of land which may be held under Proemption right or by Crown Grant with-in the limits of the tract of land in British Columbia to be so conveyed to the

British Columbia in any other way than under right of Pre-emption, requiring actual residence of the Pre-emptor on the land claimed by him. In considera-tion of the land to be so conveyed in aid of the construction of the said Rail-way, the Dominion Government agree to pay to British Columbia, from date of the Union, the sum of \$100,000 per annum pay-ments in advance,
12. The Dominion Government shall

guarantee the interest for Ten Years from the date of the completion of the works, at the rate of Five per centum per annum, on such sum, not exceed. ing £100,000 sterling, as may quired for the construction of a first

class Graving Dock at Esquimalt.

13. The churge of the Indians, and the trusteeship and management of the Lands Reserved for their use and benefit, shall be asserved. sumed by the Dominion Government, and a policy as liberal as that hitherto pursued by the British Columbia Government, shall be continued by the Dominion Government after the Union.

To carry out such policy, tracts of land of such extent as it has hitherto been the practice of the British Columbia Government to appropriate for that purpose, shall from time to time be conveyed by the Local Government to the Dominion Government in trust for the use and benefit of the Indians on application of the Dominion Government; and in case of disagreement, between the two Government sengeting the quantity of such trusted land respecting the quantity of such tracts of Land to be so granted, the matter shall be referred for the decision of the Secretary of State for

the Colonies,

14. The Constitution of the Executive Authority and of the Legislature of British Col-umbia shall, subject to the provisions of the British North America Act. 1867, continuo as existing at the time of the Union until altered under the Authority of the said Act, it being at the same time understood that the Governat the same time understood that the Government of the Dominion will readily consent to the introduction of Responsible Government when desired by the Inhabitants of British Columbia, and it being likewise understood that it is the intention of the Governor of British Columbia, under the authority of the Secretary of State for the Colonies, to amend the axisting Constitution of the Largislanurs by the existing Constitution of the Legislature by providing that a majority of its Members shall be elective.

The Union shall take effect according to the foregoing terms and conditions on such day as Her Majesty by and with the advice of Her Most Honorable Privy Council may appoint [on addresses from the Legislature of the Colon addresses from the Legislature of the Col-ony of British Columbia, and of the Houses of Parliament of Canada, in the terms of the 146th Section of the British North America Acz, 1867,] and British Columbia may in its ad-dresses specify the Riccioral Districts for which the first Election of Members to serve in the House of Commons shall take place.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and therapentes. They must not be contunded with scret or quack me is here, as their momes sufficiently indicate their composition; a circumstance which has caused them to be appreadated and prescribed by the faculty in the whole world. They widely differ from those numerous medicines advertised in the public paper as able to core every possible circase, as they are applicable only to but a very few con-plaint. The mest stringent naws exist in France, with regard to the sale of medica preparations, and only those which have under gone an examination by the Academy of Medicine, and have been proved effications, either in the Hoppitats, or in the practice of the first medical men, areautherised by the Government. Ayer's

Hair Vigor,

For restoring Gray Hair to

to its original color with the gloss and freshness of youth.
Thin hair is thick-

ened, falling hair checked, and bald-

ness often, though not always, cured by its use. Nothing can restore the fair where the follieles are destroyed, or the glands atrophied and decayed.

But such as remain can be saved for usefulness by this application. Instead

of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free

from those deleterious substances which

make some preparations dangerous and

injurious to the hair, the Vigor can

only benefit but not harm it. If wanted

HAIR DRESSING,

nothing else can be found so desirable.

Containing neither oil nor dye, it does

not soil white cambric, and yet lasts

long on the hair, giving it a rich glossy lustre and a grateful perfume.
